

Sun Village Resort & Spa

The Sun Village Resort & Spa

The Sun Village Resort & Spa, located on the north coast of the Dominican Republic, is designed to appeal to vacationers seeking their own personal paradise.

The all-inclusive Sun Village Resort & Spa is built on a hillside that gently slopes down to Cofresi Beach, a pristine bay of golden sand and azure sea. It features 305 tropically inspired rooms, suites and private luxury vacation villas that are nestled in intimate pockets throughout the property. Stone pathways wind lazily through tropical gardens connecting every room to the beach, five choices of restaurants, seven swimming pools, a lively activity area, and a thatch-covered beach bar where calypso, reggae and Meringue tunes mix with tall, cool drinks. Stroll the golden sand, laze by one of the pools or join in a Latin dance class - whether you're seeking solitude or you're looking for a pulse, you'll find it at the Sun Village Resort & Spa.

Four-star quality accommodations, services and amenities are available at a variety of price points. Both all-inclusive and European-style packages may be booked.

Sun Village Resort & Spa is the official host hotel for Ocean World, the sensational new marine adventure park located next door. Adults and children alike may reserve encounters with dolphins, sea lions, manta rays and believe it not, the world's first and only trained sharks.

Whatever it takes to awaken your Caribbean soul, you'll find that magic moment at Sun Village Resort & Spa.

Partner: Vincent Partners

The partnership has proved to be valuable for both parties. Together, the two companies have completed the project for Elliott TM Hospitality & Real Estate.
