
XML error

Posted by afterglow - 2008/03/02 06:26

After installing the XML server for evaluation, I am having the following error appear:

XML Parsing Error: junk after document element

Location: <http://islasbaleares.co.uk/xmlserver/server.php>

Line Number 2, Column 1:Warning: set_time_limit() has been disabled for security reasons in /home/fhlinux159/i/islasbaleares.co.uk/user/htdocs/xmlserver/server.php on line 0

^

Any ideas how to change this please

Cheers

This issue has been fixed in Version 5.0 Development RC90 released Monday, March 03, 2008. It affected systems where that particular function was disabled but this has now been solved.

Thanks

Paulo
