PHP4 Version is available only for licensed users. Trial users have only access to PHP5 Version.

If you are limited to PHP4 my suggestion is that you check the demo(s) online and see if the system is good for you. If it it's place an order with us. After the order has been placed you will have access to PHP5, PHP4 and ionCube version for PHP4 & PHP5

Let me know if I can further help you.

Thanks  
Paul
